

Calendar export to Google calendar

The screenshot displays a web application's calendar interface for September 2022. The interface includes a navigation bar with icons for MY SPACES, DASHBOARD, PEOPLE, MEMBERS MAP, SPACES, CALENDAR, MESSAGES, HELP, and CHAT. Below the navigation bar are filter sections for 'Select calendars' (My profile, My spaces, Follower spaces, Follower users), 'Filter events' (I'm attending, My events), and 'Filter by types' (a dropdown menu). The calendar grid shows dates from 29 to 18. Two events are visible on Wednesday, September 14: '15:30 Creating an ITC space' and '16 Update test'. A download/export icon is located in the top right corner of the calendar area.

On the main calendar page in the top right click on the download/export icon.

In the Export popup give it a name & tick 'all my spaces'

Calendar export

New export

My exports

Calendar export name *

My-Calendar

Include events from:

Profile

Space Selection

No spaces

All my spaces

Only following spaces:

Add Space

Additional filters:

Only include events I'm participating

Only include events I've created

Only include public events

Generate export Url

Then click on the Generate export Url button. (URL is another name for a link)

My-Calendar

<https://hub.transition-space.org/ical/humhub-event-7797a492-61e7-44fd-8096-98813efe/base.ics>

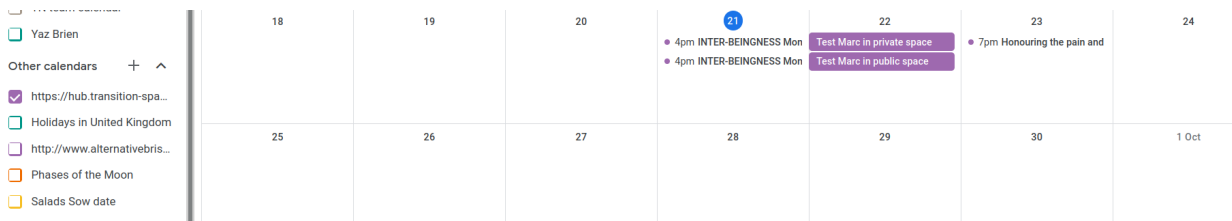

Copy to clipboard

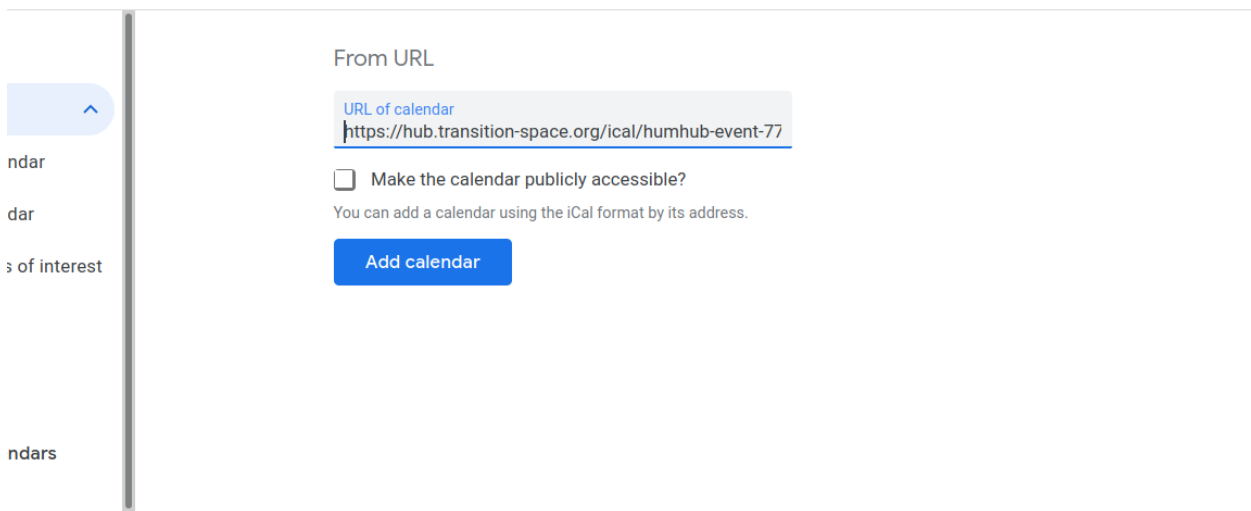

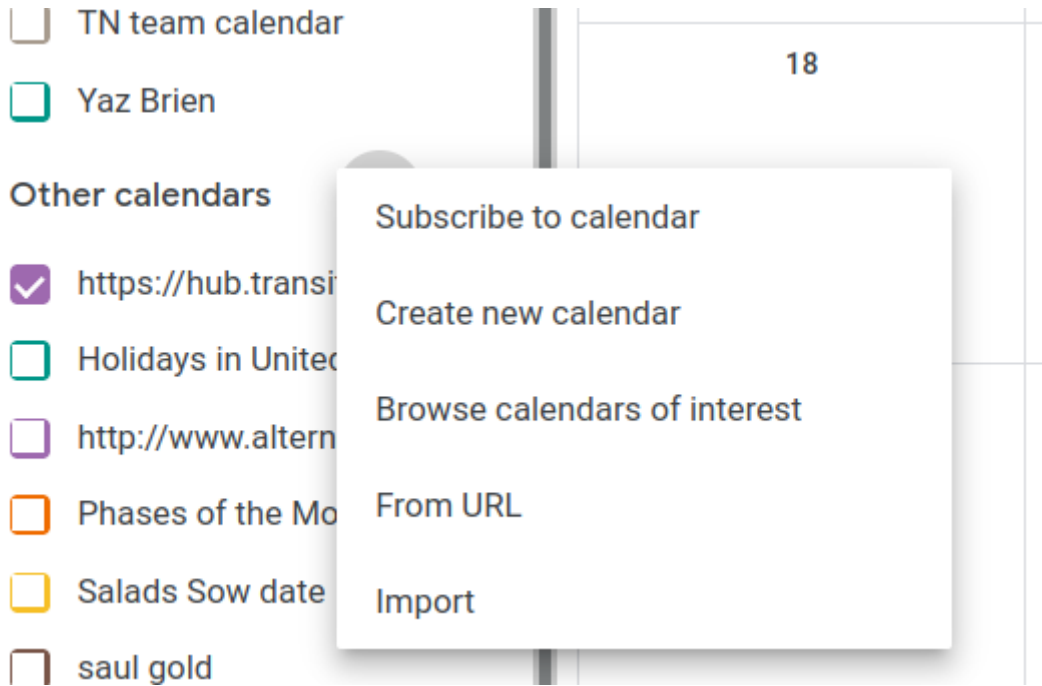

Copy to clipboard.

If you wish to sync with a Google calendar, then visit <https://calendar.google.com/>

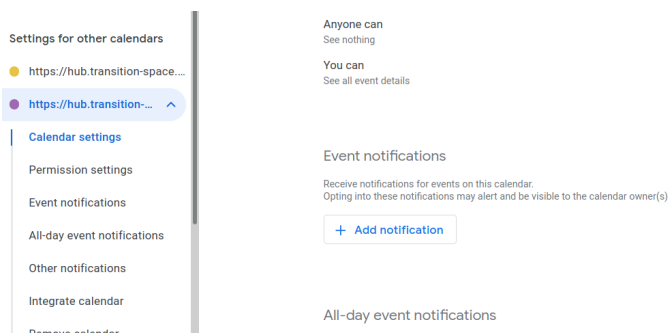

In the left is + icon next to 'other calendars'

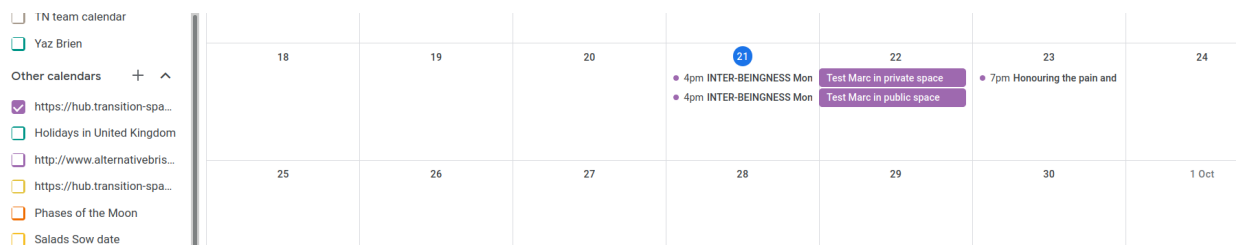

Select 'from URL' menu option, into which you paste the URL (link)

Paste the URL you copied earlier and then click the 'Add calendar' button

In the left pane you should now see your calendar & be able to adjust notifications if you wish to

So long as the calendar is 'ticked' you should now see your hub.transition-space.org events in your Google Calendar
