Calendars

There is a calendar of all public events available in the platform here: https://hub.transition-space.org/calendar/global/index

This calendar can be embedded on other websites, for example it appears on transitionnetwork.org

Depending on the type of event you are putting on there are two routes to creating a public event on this calendar

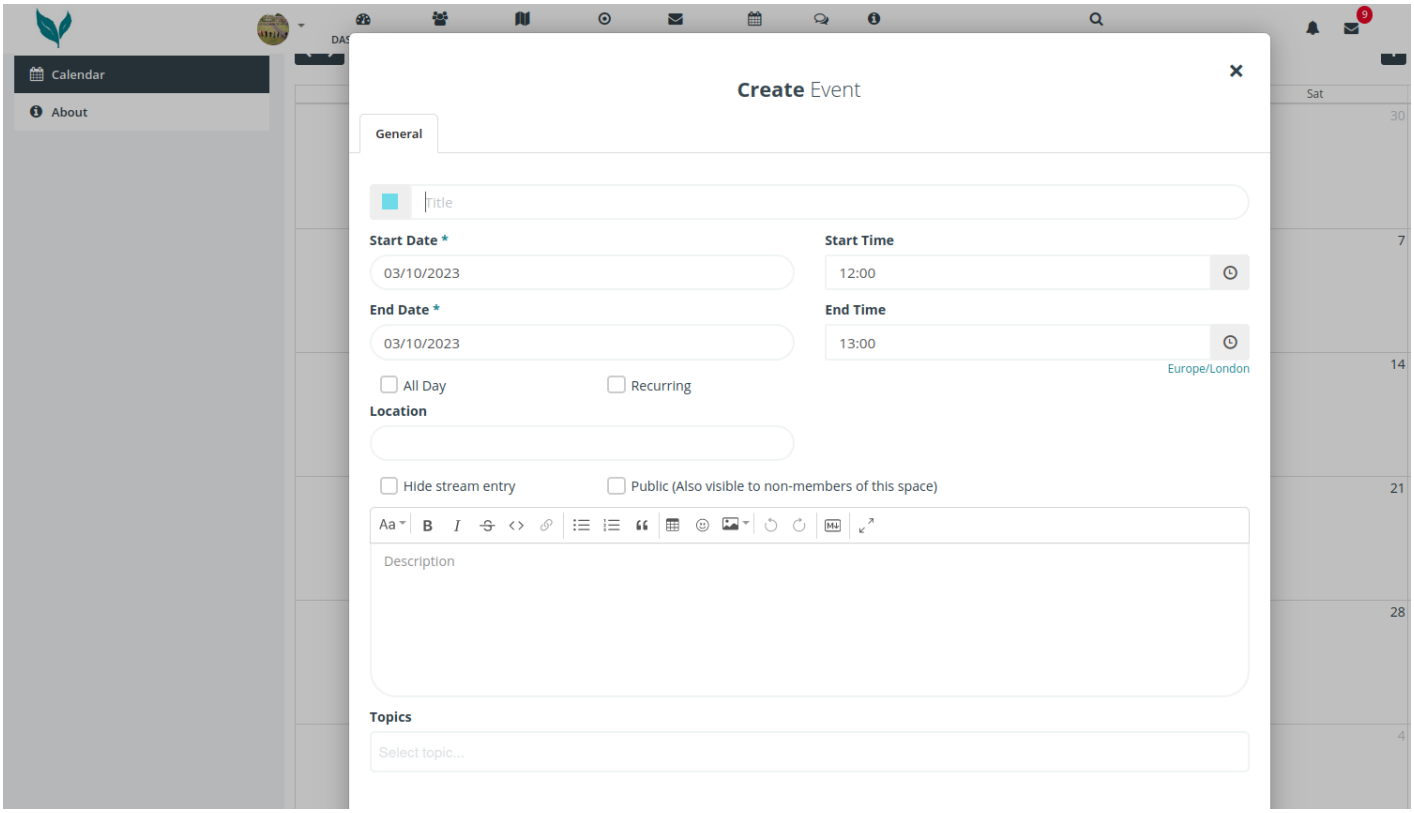

1. Creating a public event in a Humhub space
2. Creating a ticketed event in the Events site

You would choose 2. (the Events site) where you have a need for tickets, an auto-translated summary of the event, or wish to send emails to event participants or data capture about their accessibility needs.

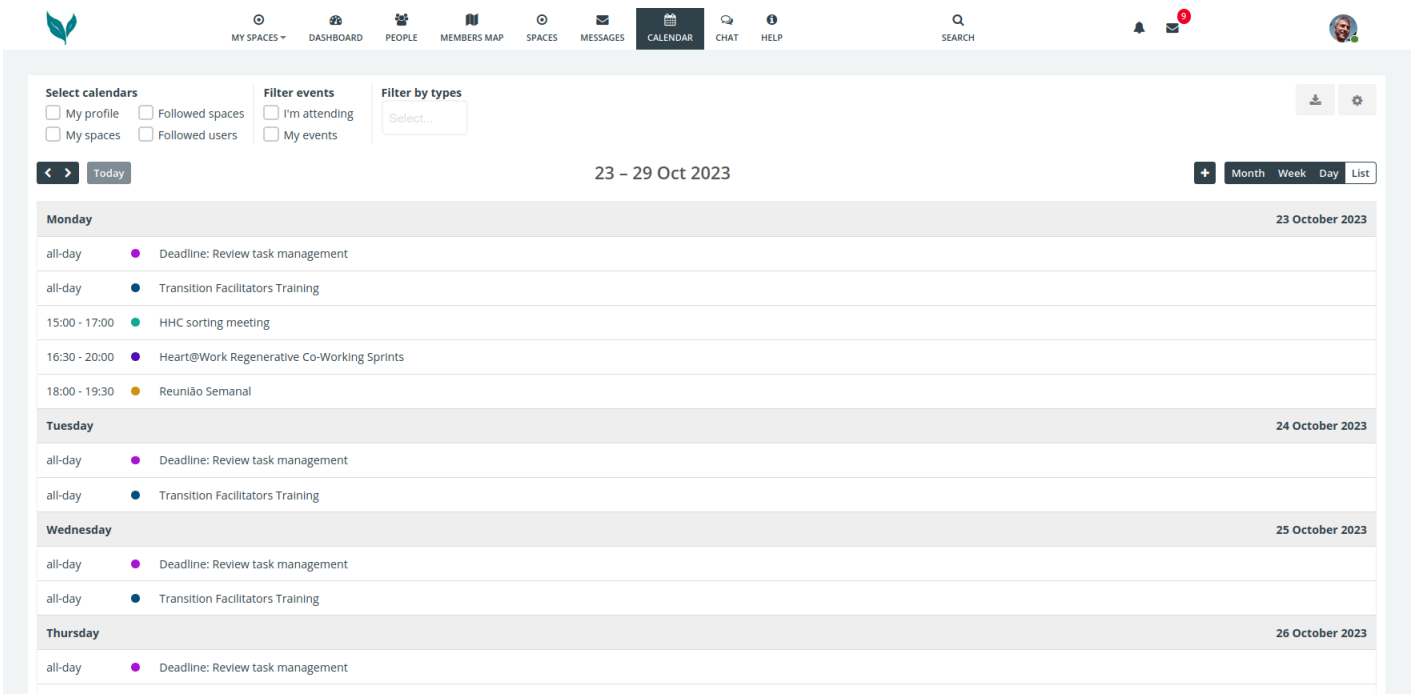

You would choose route 1. (Humhub) where you don't need the above features, or you are not a member of a hub or support circle.

Route 1: Creating a public event in Humhub

Most Spaces in the platform will have a calendar which you can add events to. To add an event click on the day you'd like to add the event.

The public events from all of these calendars are aggregated together in the main calendar view

This view can be filtered using the checkboxes at the top left.

Many spaces will also have the 'external calendar' module. This enables automatically pulling in events from other sites where they publish an ical feed

Route 2 a Ticketed event
