Introduction

Please read our [Community agreement](#) which includes instructions for how to report any content that is not in line with our agreement or other terms.

About these services

The digital services referred to collectively as 'the platform' are maintained by the Platform Stewarding group

The platform stewarding group has a remit to:

“To identify or develop and then activate and test a prototype platform and/or a set of online tools which will support Transitioners working at the international scale to connect and collaborate.”

We meet weekly.

We manage the finances through [Open Collective](#)
