

Calendars

There is a calendar of all public events available in the platform here: <https://hub.transition-space.org/calendar/global/index>

This calendar can be embedded on other websites, for example transtionmovement.org when that launches, we are considering adding it to transitionnetwork.org until then. A proof of concept [demo is visible here](#)

Depending on the type of event you are putting on there are two routes to creating a public event on this calendar

1. Creating a public event in a Humhub space
2. Creating a ticketed event in the [Events site](#)

You would choose 2. (the Events site) where you have a need for tickets, an auto-translated summary of the event, or wish to send emails to event participants or data capture about their accessibility needs.

You would choose route 1. (Humhub) where you don't need the above features, or you are not a member of a hub or support circle.

Route 1: Creating a public event in Humhub

Most Spaces in the platform will have a calendar which you can add events to. To add an event click on the day you'd like to add the event.

The 'Create Event' modal is displayed over a calendar interface. It features a 'General' tab and a 'Title' field. The 'Start Date' and 'End Date' are both set to 03/10/2023. The 'Start Time' is 12:00 and the 'End Time' is 13:00, with a 'Europe/London' time zone indicator. There are checkboxes for 'All Day' and 'Recurring'. A 'Location' field is present. Below these are checkboxes for 'Hide stream entry' and 'Public (Also visible to non-members of this space)'. A rich text editor with various formatting tools is used for the 'Description'. At the bottom, there is a 'Topics' section with a 'Select topic...' dropdown.

The public events from all of these calendars are aggregated together in the main [calendar view](#)

The main calendar view displays a week from 23 to 29 October 2023. The interface includes a top navigation bar with icons for 'MY SPACES', 'DASHBOARD', 'PEOPLE', 'MEMBERS MAP', 'SPACES', 'MESSAGES', 'CALENDAR', 'CHAT', and 'HELP'. On the left, there are filters for 'Select calendars' (My profile, Follower spaces, My spaces, Follower users) and 'Filter events' (I'm attending, My events). The calendar itself shows a list of events for each day: Monday (23 October 2023) has four events, Tuesday (24 October 2023) has two, Wednesday (25 October 2023) has two, and Thursday (26 October 2023) has one. Each event is represented by a colored dot and a title.

This view can be filtered using the checkboxes at the top left.

Many spaces will also have the 'external calendar' module. This enables automatically pulling in events from other sites where they publish an [ical feed](#)
